

Operation Coloured Pencils

Can you imagine if your children had **no coloured pencils? No Textas? No Crayons?** Well, this is the situation of the children of the Mahendra Jyoti Chaurikharka School in Solukhumbu, Nepal (near Mt Everest), which was initially founded by Sir Edmund Hillary.

The Rotary Club of Yankalilla in conjunction with TOPtoTOP Global Climate Expedition

is currently working to support the Sherpa children of this school. Each year we try to have one international project as well as our many local community projects within our own district. So this year we are undertaking to collect enough sets of coloured pencils to provide each child in the Mahendra Jyoti Chaurikharka School with their own set. Can you imagine the joy these children will feel when they receive their very own set of coloured pencils? If you would like to bring a little joy and colour to these children, you might like to donate a set of coloured pencils (or more!) for this project. (Please note, we are only collecting coloured pencils, **not** textas or crayons.) Pencils can be dropped off at 190 Main South Road, Yankalilla (opposite the Yankalilla School Oval, next to Yankalilla Landscape & Nursery), or donated via your child's school (Myponga Primary, Yankalilla Area School, Rapid Bay Primary School). We will ship the pencils to Nepal.

Please consider supporting this very worthwhile cause.

TOPtoTOP
GLOBAL CLIMATE EXPEDITION

Networking Education for Poverty Alleviation among Locals (NEPAL) was

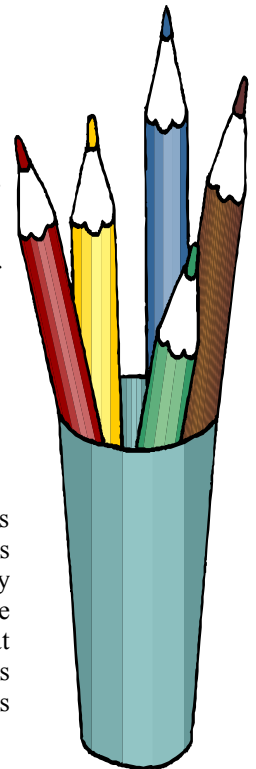

founded by a group of concerned people from Chaurikhara region of the Solukhumbu (the region of Nepal near Mt. Everest). Its purpose was to improve the educational opportunities for the children of the region through improving education facilities, providing education about both the environment and preservation of the Sherpa cultural, as well as the basic infrastructure required to support such educational endeavours. NEPAL is a registered NGO with the Government of Nepal under the registration #175-2066/5/1. See: <http://ngonepal.sherpa-adventure.com/>

Children at the Mahendra Jyoti of Chaurikharka, Solukhumbu, Nepal.

The lower secondary portion of this school was originally founded by Sir Edmund Hillary, is near the town of Lukla, site of the primary airport into the Everest region known as the Khumbu. Subsequently a secondary school at the same location was founded by Mr. Denis Bertholet of Switzerland, with the help of his friends and the Rotary Club of Lausanne.
