

TOPtoTOP is a non profit organisation under the patronage of the United Nations Environment Program that takes action focussed on the causes and the impacts of climate change.

Info on www.toptotop.org or directly from the crew, call 00871 76 25 68 933.

We are always looking for sponsors & members

Currently, volunteers from 23 nations are taking part.

Exclusive TOPtoTOP T-Shirts only here!

FROM TOP TO TOP

The first 7-summits non-stop round-the-world expedition connects the 7 continents with their various climate zones. As a «continuous challenge» we will climb the highest mountain in every continent, including Mount Vinson in Antarctica. The expedition's exclusive use of human power and nature's force (wind, solar) proves that even today great achievements can be made in balance with nature.

Sabine & Dario Schwörer

The young Swiss couple Sabine and Dario will attempt to do it non-stop. Along the expedition we try to minimise our «ecological footprint». For example, we collect at least the same amount of waste on our weekly cleaning actions as we produce on the expedition.

«During the expedition we will cover a total of 50'000 nautical miles sailing, 15'000 kilometers cycling and a total of 230'000 altimeters climbing.»

FROM SCHOOL TO SCHOOL

School visits are made by crew members at each destination. We teach children passionately about the importance of nature and give them fun projects to learn all about sustainability. Then the children express their own ideas about how we can care more for our environment and climate through painting and drawing.

Act now!

You can support this ambitious initiative:

- by buying paintings from the children printed on postcards or
- joining the expedition
- becoming a member or
- add your own solutions and observations concerning climate change to our website.

Get permanent updates, expedition reports as well as joining and membership conditions under:
